

Narrator Planning Sheet

1st: As a team you need to select a "narrator/character" that will be appearing in both 6th and 8th grade sections of your Clayanimation Video. The character must fit into the box below. It should fill the entire box without going outside of it. Below draw a rough sketch of your final character. Add color.

2nd: As a group you need to decide where your character will cut from the 6th Grade System to the 8th Grade Organelle. Also you need to figure out how the character will reenter the system from the organelle to complete the Clayanimation Video

3rd: As a group you need to select the "voice" of the narrator for your entire Clayanimation Video. It should be someone that can speak in a clear, strong, and slow voice.

- 1- _____
- 2- _____
- 3- _____
- 4- _____
- 5- _____
- 6- _____
